What's your favorite home accessory for summer?

"I love entertaining outside and always have a variety of fun accessories at home to keep things fresh. I'm partial to the hand-painted quality of the cobalt blue stools from Mecox."

—Timothy Whealon, interior designer

"I use a mirror, candles, glass vessels, and seashells to reflect light and cover up the black hole of an empty fireplace."

—Libby Langdon, interior designer

"Not only are these E. Braun & Co. towels soft and absorbent, but the colorful dots are a great way for people to remember which towel is theirs."

—John Barman, interior designer

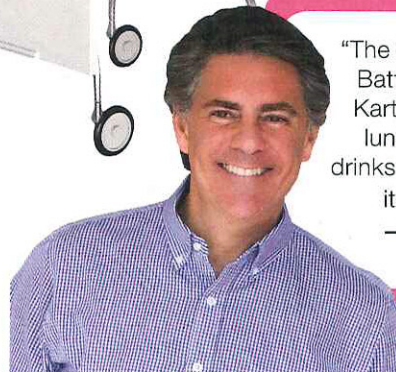

"You'll find me reading under Safavieh's Elegant Valance umbrella this season. The scalloped detail reminds me of summer in Italy, yet it still looks perfect for a house in Southampton."

—Alexa Hampton, interior designer

"The portable and compact Battista trolley table from Kartell. We use it to serve lunch on the porch and drinks by the pool, or to cart items to the grill."

—Richard Mishaan, interior designer
